INTRODUCTION

Hi, I'm Cuong. As a Computer Science and Design Art student, I have developed a unique set of **multidisciplinary skills** that allow me to bring a fresh perspective and innovative solutions to complex challenges. I have had my fair share of experience working at a consumer-facing startup as a UX designer. As a sole design **generalist**, I tackled complex challenges and delivered **presentations** to higher-ups. I have also taken up multiple responsibilities, from software development to **Scrum Master**; therefore, I can sympathize with and understand the **design handoff** fully. My time working as a Full Stack Developer showed that I'm comfortable with **exploring uncertainty and learning new skill sets**. My experience with HCI involved a **data visualization project** where, through Tableau, we analyzed how data can convey both informative and manipulative patterns. I aspire to become a **global designer and leader**, helping and mentoring others with my expertise.

WORK EXPERIENCE

Software Engineer

Ready Set Fit | PA, USA (06/2021 - 05/2023)

- Renovated and developed a new user experience for the Ready Set Fit mobile app, resulting in a 77% increase in app impressions and a 175% increase in product page views (App Store).
- Led the development of wireframes, prototypes, and high-fidelity designs using industry-standard tools such as Figma and Adobe Creative Suite, producing a successful fitness program that garnered increased public engagement from community partners.
- Conceptualized and programmed a dynamic ReactJS website, seamlessly integrating a Trails Exploration feature using Google Map API.

UX Designer

Alobase Technology and Services JSC | Hanoi, Vietnam (04/2020 - 04/2021)

- Led the product design process of 2 B2B SAAS projects, including Trekkrs, a community platform for startups to connect with VCs. Successfully achieved MVP versions within 4 months each.
- Promoted collaboration and consistency across teams, including an outsourcing agency, through effective communication and design hand-off.
- Facilitated meetings with development teams, higher seniors, and clients to deliver design presentation and project goals.
- Managed the media design team for a major company-hosted event and successfully promoted it to reach an international audience of 3000 college students, 23 leading corporations, and 154 investment funds.
